

Description

Single pole thermal-magnetic circuit breaker with trip-free mechanism and toggle actuation. Two-chamber construction with cascade contact arrangement to provide high voltage DC capability and high switching performance.

Designed for plug-in mounting in distribution rail X2210-S0606J (see section Power Distribution Systems) or terminal blocks 23-P10-Si-202005 and 63-P10-Si-202005.

Approved to CBE standard EN 60934 (IEC 60934).

Typical applications

Communications systems, power supplies, process control equipment.

Ordering information

Type No. 2210 thermal-magnetic circuit breaker, toggle operated

Mounting

S291 socket or panel mounting with M3 thread

Terminal design

P9 blade terminals, for distribution rails X2210-S.. and X2210-K..

Characteristic curve

M2 medium delay

Style

410033 single pole with two chambers (one chamber protected only), 1 break contact Si1

Current ratings

1...25 A

2210 - S291 - P9 M2 - 410033 - 10 A ordering example

Standard current ratings and typical internal resistance values

Typical time/current characteristics

The time/current characteristic curve depends on the ambient temperature prevailing. In order to eliminate nuisance tripping, please multiply the circuit breaker current ratings by the derating factor shown below. See also section Technical information.

Ambient temperature °F	-22	-4	+14	+32	+73.4	+86	+104	+122	+140
°C	-30	-20	-10	0	+23	+30	+40	+50	+60

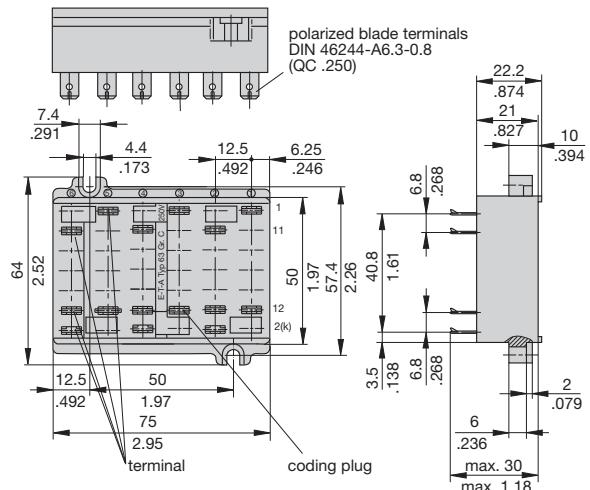

Derating factor 0.76 0.79 0.83 0.88 1 1.04 1.11 1.19 1.29
